In the taxation of income which is subject to the City Income Taxes, if the books and records of a taxpayer conducting a business or profession both within and without the boundaries of the City shall disclose with reasonable accuracy what portion of its net profit is attributable to that part of the business or profession conducted within the boundaries of the City, then only such portion shall be considered as having a taxable status in the City for the purposes of municipal income taxation. The portion of the entire net profits of a taxpayer to be allocated as having been derived from within the City, in the absence of actual records thereof, shall be determined as follows:

(a) Multiply the entire net profits by a business allocation percentage to be determined by a three-factor formula of property, payroll and sales, each of which shall be given equal weight as follows:

(1) The average net book value of the real and tangible personal property owned or used by the taxpayer in the business or profession in the City during the taxable period to the average net book value of all the real and tangible personal property owned or used by the taxpayer in the business or profession during the same period, wherever situated.

As used in the preceding paragraph, real property shall include property rented or leased by the taxpayer and the value of such property shall be determined by multiplying the annual rental thereon by eight.

(2) Wages, salaries and other compensation paid during the taxable period to persons employed in the business or profession for services performed in the City to wages, salaries and other compensation paid during the same period to persons employed in the business or profession, wherever their services are performed.

(3) Gross receipts of the business or profession from sales made and services performed during the taxable period in the City to gross receipts of the business or profession during the same period from sales and service, wherever made or performed.

(b) In the event that the foregoing allocation formula does not produce an equitable result, another basis may, under uniform regulations, be substituted so as to produce such result. (Ord. 81-67. Passed 8-28-67.)

As used in Section [171.0701](#) (a)(3), sales made in the City mean:

**171.0703 TOTAL ALLOCATION.**

Add together the percentages determined in accordance with Section 171.0701(a)(1), (2) and (3), or such of the aforesaid percentages as are applicable to the particular taxpayer and divide the total so obtained by the number of percentages used in deriving the total in order to obtain the business allocation percentage referred to in Section 171.0701.
