The Board of Trustees
of the Regional Income Tax Agency
and Member Municipalities

The Regional Income Tax Agency (RITA or the Agency) issues a Comprehensive Annual Financial Report (CAFR) in response to Ohio law (Ohio Administrative Code Section 117-2-03(B)). This regulation requires the Agency's audited financial reports, prepared on a GAAP (Generally Accepted Accounting Principles) basis, to be filed with the Auditor of State within six months of the close of each fiscal year. This report was published to fulfill that requirement for the year ended December 31, 2018.

The Agency's management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that is maintained for this purpose. As the cost of internal control should not exceed the benefit, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements. To the best of our knowledge and belief, the enclosed information is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the Agency. All disclosures necessary to enable the reader to gain an understanding of the Agency's financial activities have been included.

Ciuni & Panichi, Inc. has issued an unmodified opinion on the Agency's financial statements for the years ended December 31, 2018 and 2017. The Independent Auditor's Report is located at the front of the financial section of this report.

Management's Discussion and Analysis (MD&A) immediately follows the Independent Auditor's Report and provides a narrative introduction, overview and analysis of the basic financial statements. The information contained in the MD&A complements this letter of transmittal and should be read in conjunction with the transmittal for a complete comprehension of the results of the 2018 operations.

Profile of the Agency

The Agency was established in 1971 to collect and distribute municipal income taxes. RITA, created by the Members of a Regional Council of Governments (RCOG) under Section 167 of the Ohio Revised Code, is subject to Ohio law in areas that include investments, purchasing and employee benefits. The Agency is guided by the Board of Trustees, elected by the Members of the RCOG for three-year terms. The Trustees appoint an Executive Director who is responsible for the operations of the Agency. The Trustees also appoint the Chief Financial Officer and the Chief Legal Officer whereas all other Agency personnel are approved by the Executive Director.

For financial reporting purposes, the Agency's basic financial statements include the two funds for which the Agency is financially responsible. Following the GASB (Governmental Accounting Standards Board) definition of financial accountability there are no other entities that are required to be incorporated into the financial statements.

Although not required under the Ohio Revised Code, an annual operating budget is adopted for management purposes. The Agency's budget is prepared on the accrual basis, by department, for personal services and other expenses; the debt service is budgeted for the Agency as a whole. The Board of Trustees approves the budget and authorizes the Executive Director to expend the funds per established purchasing restrictions.

The Executive Director has the authority to approve most expenses for goods and services up to \$10,000. The Board's Finance Committee approves all purchases from \$10,000 to \$25,000 with any expenditure over \$25,000 needing full Board approval. The Trustees must also authorize any budget reallocation between departments or expense types, or for an increase in the total budget. There were no budget amendments in 2018.

Factors Affecting Financial Condition

Collections continue to increase as the Agency collected over \$1.46 billion in 2018. During the year the Agency also continued to experience excellent financial results. RITA's average cost of collections was a low 1.42% which means services cost only 1.42 cents for each dollar distributed to the Members. The RITA cost-sharing model is ideal for maintaining an excellent cost of collections. One of the Agency's primary objectives is to continue the low average cost which in turn helps keep RITA's services attractive to its Members and sustains the Agency's solid economic stability.

The success of RITA's tax services is evident as the membership continues to increase. The Agency's member base has risen by over 150 municipalities/taxing jurisdictions over the last ten years. Furthermore, there are many other communities that have expressed an interest in joining the Agency. RITA's communities now extend across 73 of the 88 counties in the State of Ohio.

As always, the Agency remains committed to its mission of providing high quality, cost effective, municipal tax collections.

Relevant Financial Policies

As briefly discussed above, the Agency's management is responsible for establishing and maintaining an internal control structure designed to ensure that the Agency's assets are protected from loss, theft or misuse. The internal control structure is to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: 1) the cost of a control should not exceed the benefits likely to be derived; and 2) the valuation of costs and benefits requires estimates and judgments by management. All Agency internal controls are designed within the above framework. Accordingly, it is believed that the system of internal controls is adequate to safeguard assets and provide reasonable assurance of proper recording of transactions.

Prior to distribution, all Agency cash is pooled for investment purposes to provide a maximum yield while protecting principal through conservative investment choices. The Agency's investment policy designates the type of investments that can be made and only permits investments which are in compliance with the Ohio Revised Code. Protection of the Agency's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), with eligible instruments pledged by the financial institution as security for repayment. The Agency primarily invests in short-term, liquid instruments; there is also a core of funds available for investments with terms not to exceed two years.

RITA is exposed to various risks of loss including theft, damage to or destruction of assets, errors and omissions, torts and legal judgments, and employee injuries. The Agency mitigates these risks by maintaining comprehensive general liability insurance, an overall umbrella policy as well as coverage for business interruption and property losses. The Agency provides health, dental, vision and life insurance to its employees through standard premium-based plans and obtains coverage through the State of Ohio Worker's Compensation program.

Long-Term Financial Planning

The Agency has issued debt sparingly, preferring to finance major initiatives with current cash flow. However, the Agency did assume debt several years ago to fund the effort to update its technology (see Note 8 for further information). The assets obtained with the proceeds of the debt are depreciated over the useful lives of the items and the related expense is recognized in the proper accounting periods. The debt repayment schedules were initially structured in a manner to best match the depreciation with the principal payments. In March 2009, the Agency exercised an early redemption option for the Series 2000B Project bonds. The retired debt carried a 6% per annum interest rate along with an annual administrative fee of .03%, the total of which was substantially higher than the investment rates available at that time. In November 2015, the Agency elected to exercise another early redemption option for the Series 2000B Project bonds. This retired debt carried a 4.375% per annum interest rate along with an annual administrative fee of .03%. In June 2017, the Agency again elected to exercise early redemption for the remainder of the Series 2000B Project bonds. The debt carried a 5.00% per annum interest rate and an annual administration fee of .03%. Note 8 provides additional information. Future debt issuances are not expected to be needed as continuous updating of the Agency's technology is budgeted through annual expenses as a part of the Agency's strategic plan.

Major Initiatives

The ongoing improvement of the Agency's systems is an important component of the Agency goals. These objectives continue to be to increase productivity, decrease operating costs and maintain excellent service through the use of technology.

During 2018, the Agency enhanced the guest service option, FastFile, which previously only allowed individual taxpayers with W-2/W-2G income to file electronically without the need to create a user profile. For 2019 filings, taxpayers with schedule income could also use this method of filing. RITA continued to enhance the integration of its proprietary tax system (RITAX[®]) with the IRS's Modernized eFile (MeF) program, to provide tax software providers with a seamless interface through which their federal, state and municipal tax information may be transmitted. Tax preparers are afforded the opportunity to complete individual tax filing in a single transmission. This interface was expanded to include the transmission of business net profit tax returns for the 2019 filing season. The Agency continues to work with the Ohio Department of Taxation (ODT) to accept filings from the Ohio Business Gateway (OBG) as well as electronic filings from third-party payroll providers.

RITA's successful use of the IRS federal tax information (FTI) database, and ongoing enhancements to the Agency's in-house custom designed software program (FEDTAX) continue to provide an efficient method for discovering, tracking and assessing non-filing and under-reporting accounts, and has resulted in the collection of more than \$80 million in previously unidentified taxes. In 2018, development and roll-out of processing employer provided salary information (PEPSI) was complete. This process allows for employer submitted W-2's to be compared to the FTI database to automatically process unfiled individual tax returns.

The Agency expands and revises its business continuation plans with the goal of limiting risks to continuing operations in times of calamity. In 2017, backup generators were installed at both the Worthington and Youngstown offices, while the Agency's communications system was upgraded and made completely redundant. At the Brecksville office, a state-of-the-art fire suppression system was installed and the lobby was renovated to better accommodate walk-in taxpayers. During 2018, plans have been developed to renovate the lobby in Worthington.

Approximately 900 tax professionals attended a web-based seminar in January 2019 sponsored by RITA as a kick-off to the tax filing season. Year-round the Agency's speakers' bureau continues to present tax-related topics to professional associations throughout the state.

The Agency launched a redesigned website and refreshed logo. Both are a part of RITA's commitment to "make the process of meeting your local tax obligation simple, fair and professional." The new logo, in part,

symbolizes RITA's dedication to cutting edge technology and the redesigned website reflects that as well, with user friendly access to online services and resources.

RITA continues to expand the customized training it provides to its staff in support of the Agency's commitment to provide its member municipalities with professional, high quality services. Tax payers and municipal finance personnel also benefit from instructional videos that are continuously developed, updated and made available to them via RITA's website and tax authority portal.

Awards and Acknowledgements

GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Regional Income Tax Agency for its CAFR for the year ended December 31, 2017. This was the thirty-third year that the Agency has achieved this prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. The CAFR must satisfy both generally accepted accounting principles and applicable legal requirements.

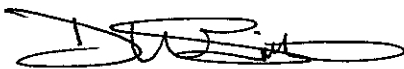

A Certificate of Achievement is valid for a one year period. We believe our current report continues to conform to the Certificate of Achievement program requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments

Recognition and appreciation are extended to the Board of Trustees for their leadership, commitment and guidance in conducting the financial operations of the Regional Income Tax Agency in a highly responsible manner.

The timely preparation of this Comprehensive Annual Financial Report would not have been possible without the efficient and dedicated talents of the Administration and Finance Departments. Their hard work and continuing efforts to produce and improve the quality of this report are a direct benefit to all that read and use it. We would like to express our appreciation for their endeavors. We would also like to commend each department for their cooperation and assistance throughout the year in the efficient administration and commitment to the vision, mission and goals of the Agency.

Respectfully submitted,

Donald W. Smith, CPA

Independent Auditor's Report

To the Board of Trustees
Regional Income Tax Agency

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and the aggregate remaining fund information of the Regional Income Tax Agency (the "Agency") as of and for the years ended December 31, 2018 and 2017, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Agency's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

To the Board of Trustees
Regional Income Tax Agency

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the aggregate remaining fund information of the Agency, as of December 31, 2018 and 2017, and the respective changes in financial position, and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Implementation of New Accounting Standards

As described in Note 3 to the basic financial statements, in 2018, the Agency adopted new accounting guidance, Governmental Accounting Standards Board (GASB) Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* and as a result restated the December 31, 2017 net position of the business-type activities. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required schedules on pensions and other postemployment benefits as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the GASB, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Agency's basic financial statements. The introductory section, Statement of Changes in Assets and Liabilities – Agency Fund, budgetary comparison information, and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Statement of Changes in Assets and Liabilities – Agency Fund and budgetary comparison information are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Statement of Changes in Assets and Liabilities – Agency Fund and budgetary comparison information are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

To the Board of Trustees
Regional Income Tax Agency

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 6, 2019, on our consideration of the Agency's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Agency's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Agency's internal control over financial reporting and compliance.

REGIONAL INCOME TAX AGENCY

Management's Discussion and Analysis

(Unaudited)

The following discussion provides a summary overview of the financial activities of the Regional Income Tax Agency (the "Agency") for the years ended December 31, 2018 and 2017, with comparative information for the year ended December 31, 2016. This information should be read in conjunction with the letter of transmittal and basic financial statements included in this report.

Financial Highlights

2018

- Total Agency collections continue to increase. This growth in tax revenues is attributable to new municipalities and modest gains for established Members.
- The average net cost of collections percentage remained steady from 1.53% in 2017 to 1.42% in 2018.
- Overall operating expenses increased approximately \$1.3 million from the prior year. The increase is the result of the following:
 - Personal Services – Expense grew by 3.5% from 2017 as Agency growth has warranted the addition of staff. The increase is also attributable to pension and other post-employment benefits expense directly related to GASB Statements No. 68 and 75.
 - Professional and Processing – Expense is higher because of the additional use of Information Services contractors that focused on system development and enhancements and the increased volume of lockbox and credit card transactions resulting from the larger Agency membership.
- The change in Tax Collection Fees is related to the increased operating costs.
- Implementation of GASB 75 in the current year resulted in a restatement of net position from \$6,163,474 to \$13,087,717 to record the related retiree health care and other post-employment benefit (OPEB) liabilities as of December 31, 2017.
- The Agency experienced an increase overall in net position of \$135,591 from 2017. Fluctuations in net position are expected year-to-year based on the nature of the Agency's operations.

2017, prior year highlights

- Total Agency collections continued to increase due to growth in tax revenues is attributable to new municipalities and modest gains for established Members.
- The average net cost of collections percentage remained steady from 1.55% in 2016 to 1.53% in 2017.
- Overall operating expenses increased over \$3 million from the prior year. Majority of the increase due to increases in Personal Services by almost 17% from 2016 as Agency growth warranted the addition of staff and the effects on pension expense directly related to GASB Statement No. 68. Depreciation and Amortization also increased as the result of building renovations complete in 2016 and 2017 and the new updated IVR system.
- In June 2017, the Agency elected to exercise the optional redemption provision for the Series 2004 Development Revenue bonds.
- The Agency experienced an increase overall in net position of \$230,412 from 2016.

Overview of the Basic Financial Statements

A fund is a grouping of related accounts utilized to maintain control over the resources used to perform specific activities. The Agency has two funds; one is proprietary (business-type activity) and the other fund is fiduciary. The proprietary fund is an enterprise fund that primarily accounts for the Agency's tax collection services. The Agency provides these services to its members on a cost reimbursement basis with no margin or profit. During the year the operations are funded with advance fees from the municipalities. At year-end, costs are allocated to members based on transactions and amounts collected; the municipalities' individual fee refunds or fee payables are then computed. After settlement of the amounts owed/due, the net position balance for the tax collections activity for the year, is brought to zero. The proprietary fund is also used to record the Municipal Services Department financial software

REGIONAL INCOME TAX AGENCY
Management's Discussion and Analysis
(Unaudited)

support activities. This department can retain net income and any such amounts are available to fund customer support in subsequent years.

The fiduciary fund accounts for the Members' tax receipts held by the Agency prior to distribution to the municipalities. The funds are invested in permissible instruments and all interest income is used to offset the Members' costs for the tax collection services.

This discussion and analysis is intended to serve as an introduction to the Agency's basic financial statements. The Agency's basic financial statements have three components: 1) proprietary fund statements, 2) fiduciary fund statement, and 3) notes to the basic financial statements. The proprietary fund statements consist of the Statements of Net Position, the Statements of Revenues, Expenses and Changes in Net Position and the Statements of Cash Flows. The fiduciary fund statement is the Statements of Fiduciary Net Position. The Notes to the basic financial statements are a required and integral component of the basic financial statements. The CAFR also addresses other supplementary information in the Statistical Section.

Financial Analysis of the Agency's Financial Position and Results of Operations

The Statements of Net Position present the Agency's financial position and report the resources owned by the Agency (assets), deferred outflows of resources, obligations owed by the Agency (liabilities), and deferred inflows of resources with the residual being reported as net position. The Statements of Revenues, Expenses and Changes in Net Position present a summary of how the Agency's net position changed during the year. Revenue is reported when earned and expenses are reported when incurred. The Statements of Cash Flows provide information about the Agency's cash receipts and disbursements during the year. They summarize net changes in cash resulting from operating, investing and financing activities. The Notes to the Basic Financial Statements provide additional information that is essential for a full understanding of the Basic Financial Statements.

The following tables present summaries of the Agency's financial position and operations for 2018 as well as the 2017 and 2016 results.

The first table is a summary of the Agency's net position, which condenses information on all of the Agency's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Agency is improving or deteriorating. However, take note that the primary purpose of the Agency is to provide tax collection services and, as previously noted, for these services the Agency operates on a cost basis only, with no margin or profit and no related net position. Since the implementation of GASB 68 and GASB 75, as further explained on the next page, the Agency reports a deficit in net position. This is directly related to the Agency's portion of the net pension liability and any fluctuations in the Municipal Services department. The Municipal Services department provides low cost, financial system support to municipalities. The Agency's financial position for 2017 and 2018 improved due to the increased revenue earned by the Municipal Services department and a reduction in personnel expenses.

The second table is the Statement of Revenues, Expenses and Changes in Net Position, which presents a summary of the change in the Agency's net position.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and post-employment benefits (GASB 45) focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability* or *other post-employment liability*. GASB 68 and GASB 75 both take an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

Under the earnings approach, the GASB 68 and GASB 75 established the net pension and post-employment liability equal to the Agency's proportionate share of each plan's collective present value of estimated future pension and OPEB benefits attributable to active and inactive employees' past service minus plan assets available to pay these benefits. The Agency and its employees contribute to the State's multi-employer managed fund: the Ohio Public Employees Retirement System (OPERS).

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange." As such, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and/or post-employment benefit, GASB noted that the unfunded portion of this pension and OPEB promises are a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the Agency is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

REGIONAL INCOME TAX AGENCY
Management's Discussion and Analysis
(Unaudited)

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system and no control over the allocation of its contributions. In Ohio, there is no legal means to enforce the unfunded liability of the pension system as against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the noncurrent liability section of the Statements of Net Position.

In accordance with GASB 68 and GASB 75, the Agency's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability and net OPEB liability, respectively, not accounted for as deferred outflows/inflows. As a result of implementing GASB 75 in this fiscal year, the Agency is reporting a net OPEB liability and deferred outflows and deferred inflows of resources related to OPEB on the accrual basis of accounting. This implementation had the effect of restating net position from \$(6,136,474) to \$(13,087,717) as of December 31, 2017. See disclosure Note 3 to the financial statements for additional details on the restatement.

Many end users will gain a clearer understanding of the Agency's financial condition by adding deferred inflows related to pension and OPEB and the net pension and OPEB liabilities to the reported net position and subtracting deferred outflows related to pensions, OPEB and net pension asset.

Overall, total assets increased 12% mainly because of an increase in Cash and Cash Equivalents and an increase in Due from Others. These increases were due in large part to the continued increase in tax collections while keeping operating costs under control as well as the interest income earned in 2018. In 2017, total assets decreased 2% mainly because of the use of Restricted – due from Trust for the debt extinguishment offset by the increase in Due from Others.

The Agency invests its Cash and Cash Equivalents in a variety of investment types with the primary focus being safety of principle, but with an attention to investment opportunities to increase yield. The Agency realized \$1,705,566 and \$661,307 in investment income for 2018 and 2017, respectively.

The change in total liabilities is a result of numerous factors including the Accrued Claims and Judgements liability (see Note 13) and an increase in Unearned Revenue. GASB 75's requirement to record \$8,079,293 of Other Post-Employment Benefits liability, offset by a decrease in Net Pension Liability of \$3,933,565 also contributed to the overall increase. For 2017, the small increase in total liabilities is as a result of the increase in Unearned Revenue and Net Pension Liability offset by the early retirement of the capital lease.

The Statements of Revenues, Expenses and Changes in Net Position report the proprietary fund operating income and costs, non-operating income and costs, and the change in net position. This statement, shown in Table 2, reflects the results for 2018, 2017 and 2016.

(1) Change in Accounting Principle required a restatement of 2018 ending Net Position. See Note 3.

REGIONAL INCOME TAX AGENCY
Management's Discussion and Analysis
(Unaudited)

In accordance with GASB 68 and GASB 75, the Agency's statements include an annual pension expense and an annual OPEB expense for their proportionate share of the net pension liability and net OPEB liability, respectively, not account for as deferred outflows/inflows.

The information necessary to restate the 2017 beginning balance and the 2017 OPEB expense amounts due to the initial implementation of GASB 75 was not available. Therefore 2017 and 2016 expenses still include OPEB expense of \$101,633 and \$193,209, respectively, as computed under GASB 45. GASB 45 required recognizing other post-employment expense equal to the contractually required contributions to the plan. The Agency had no such contractual obligations but recorded adjustments to future liabilities based on actuarial data regarding eligible retirees. Under GASB 75, OPEB expense represents additional amounts earned, adjusted by deferred outflows and deferred inflows. The contractually required contribution is no longer a component of computing OPEB expense. Under GASB 75, the Agency's fiscal year 2018 financial statements report OPEB expense of \$842,150.

Additional information on the Agency's pension and OPEB liabilities can be found in Notes 11 and 12.

The Tax Collection Fees represent the portion of the Member retainers used to fund the Agency's tax operations. As noted previously, the increase in Tax Collection Fees is due to the greater costs of Personal Services, Professional and Processing and Depreciation and Amortization.

- The Charges for Services and Other Revenues include income from the following:
 - Subpoena programs – The Agency compliance auditors travel to local city halls to assist individuals who are delinquent in filing tax returns and to obtain the related tax payments.
 - Small claim lawsuits – The Agency paralegals represent the municipalities in court to obtain judgments against taxpayers for unpaid taxes.
 - Support of accounting software – The Municipal Services department provides financial software and support services.
 - Miscellaneous fees/reimbursements – This item includes amounts charged for copies of records, charges for extraordinary services and reimbursements for employee time spent on special projects.

- The Agency's substantial expenses are:
 - Personal Services – As the Agency is primarily a service organization, the bulk of the operating expenses are for personnel. The increase in expense is primarily related to the increase in pension expense related to GASB 68 and GASB 75 as explained above.
 - Professional and Processing – This expense is largely for contractor services for system development, security services, lockbox and credit card processing.
 - Depreciation and Amortization – The Agency uses the accrual basis of accounting. As such, when assets are purchased the costs are recognized over the life of the resources. The useful lives are 5 to 40 years and depreciation is calculated using a mid-year conversion.
 - Equipment and Software Maintenance – This expense is for the ongoing software licenses and hardware/equipment maintenance costs.
 - Material and Supplies - Postage and operating supplies make up this expense.

The Net Pension Liability is the largest liability reported by the Agency for both 2018 and 2017. 2017 activities also reflect the repayment of the debt. Further details on the Agency's long-term liabilities can be found in Notes 7 and 8.

The other significant proprietary financial report is the Statements of Cash Flows, which provides information about the Agency's cash receipts and disbursements during the year. It summarizes net changes in cash resulting from operating, investing and financing activities. The Notes to the Basic Financial Statements provide further information that is essential to a full understanding of the financial statements.

Contacting the Agency's Financial Management

This financial report is designed to provide a general overview of the Agency's finances for all interested parties. Questions and requests for additional information regarding this report should be addressed to the Chief Financial Officer, Regional Income Tax Agency, 10107 Brecksville Road, Brecksville, Ohio 44141-3275 or by telephone at 440-526-0900.

The Accompanying Notes are an Integral Part of these Basic Financial Statements

Regional Income Tax Agency

Notes to the Basic Financial Statements

December 31, 2018 and 2017

Note 1: Reporting Entity

The Regional Income Tax Agency (the Agency) is an independent entity that provides efficient collections of municipal income taxes for the member municipalities (the Members) of a Regional Council of Governments formed under Section 167 of the Ohio Revised Code. The Members elect a nine position Board of Trustees to oversee the Agency operations. The Agency has a fiduciary responsibility to collect municipal income taxes for its Members at the rates levied and then distribute the municipal income taxes (less related net expenses and refunds) to its Members. Distributions of tax collections to Members are based upon information provided by taxpayers on tax returns and other supporting data.

For financial reporting purposes, the Agency's financial statements include all funds for which the Agency is financially accountable. Financial accountability, as defined by the Governmental Accounting Standards Board (GASB), exists if the Agency appoints a voting majority of an organization's governing board and is either able to impose its will on that organization or there is potential for the organization to provide specific financial benefits to, or impose specific burdens on, the Agency. The Agency may also be financially accountable for governmental organizations with a separately elected governing board, a governing board appointed by another government, or a jointly appointed board that is fiscally dependent on the Agency. Also taken into consideration are any other organizations for which the nature and significance of their relationship with the Agency are such that exclusion would cause the financial statements to be misleading or incomplete. Based on these criteria, there were no other organizations that require incorporation into the financial statements.

Note 2: Summary of Significant Accounting Policies

The following summarizes the significant accounting policies applied in the preparation of the basic financial statements.

A. Basis of Presentation

The financial statements of the Agency have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant of the Agency's accounting policies are described below.

The Agency's basic financial statements consist of the Statements of Net Position, the Statements of Revenues, Expenses and Changes in Net Position, the Statements of Cash Flows, and the Statements of Fiduciary Net Position.

The Agency uses a single enterprise fund and an agency fund to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. Enterprise fund reporting focuses on the determination of the change in net position, financial position and cash flows. An enterprise fund may be used to account for any activity for which a fee is charged to external users.

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the entity under a trust agreement for individuals, private organizations, or other governments and are, therefore, not available to support the entity's own programs; the Agency has no trust funds.

Regional Income Tax Agency

Notes to the Basic Financial Statements

December 31, 2018 and 2017

Note 2: Summary of Significant Accounting Policies (continued)

A. Basis of Presentation (continued)

Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The Agency's only agency fund is used to account for tax collections held by the Agency as an agent for the Members.

Changes in accounting principles require retrospective application in comparative statements. In year 2018, the Agency implemented GASB Statement No. 75, *Accounting and Financial Reporting for Post-employment Benefits Other Than Pensions* which required a restatement to 2017 ending Net Position, see Note 3.

B. Measurement Focus

The enterprise fund is accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and liabilities associated with the operation of this fund are included on the Statements of Net Position, except for the agency fund. The Statements of Revenues, Expenses and Changes in Net Position present increases (i.e., revenues) and decreases (i.e., expenses) in net position. The Statements of Cash Flows provide information about how the Agency finances and meets the cash flow needs of its enterprise activities.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. The Agency's basic financial statements are prepared using the accrual basis of accounting. Revenue is recorded on the accrual basis when the exchange takes place. Expenses are recognized at the time they are incurred.

D. Cash and Cash Equivalents

Investments are reported at fair value which is based on quoted market prices. The STAR Ohio investment pool managed by the State Treasurer's Office, allows governments within the state to pool their funds for investment purposes. STAR Ohio is not registered with the Securities and Exchange Commission as an investment company, but has adopted Governmental Accounting Standards Board (GASB) Statement No. 79, *Certain External Investment Pools and Pool Participants*. The Agency measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

For 2018 and 2017, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice should be given 24 hours in advance of all deposits and withdrawals exceeding \$25 million. STAR Ohio reserves the right to limit the transaction to \$100 million per day, requiring the excess amount to be transacted the following business day(s), but only to the \$100 million limit. All accounts of the participant will be combined for these purposes.

Regional Income Tax Agency

Notes to the Basic Financial Statements

December 31, 2018 and 2017

Note 2: Summary of Significant Accounting Policies (continued)

D. Cash and Cash Equivalents (continued)

For purposes of the Statements of Cash Flows and for presentation on the Statements of Net Position, investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the Agency are considered to be cash equivalents. Instruments with an initial maturity of more than three months are reported as investments.

E. Income Taxes of Member Municipalities and Allowance for Doubtful Accounts

Income taxes of member municipalities is a significant income tax receivable estimate based on distribution activity, historical collection rates and an assessment of aged receivables. The income taxes of member municipalities can significantly fluctuate year to year based on RITA membership, income tax rate changes, income tax due dates and collection experience. Income taxes of member municipalities is shown net of a \$5,034,386 allowance for doubtful accounts at December 31, 2018 and \$4,779,909 at December 31, 2017. The allowance reflects management's best estimate of the amounts that will not be collected.

F. Capital Assets and Depreciation

All capital assets are recorded at historical cost. The Agency maintains a capitalization threshold of \$500. Depreciation is charged to operations over the assets' estimated useful lives using the straight-line method, with one-half year's depreciation in the year of acquisition. Estimated useful lives are as follows:

Buildings and Improvements	40 years
Office Equipment and Software	5 – 30 years
Vehicles	5 years

G. Allocation of Expenses to Members

The Agency allocates to Members net operating expenses, after reduction for interest income, charges for services and other revenues. The Members' allocation is based upon the average of the percentage of each Member's transactions to total Agency transactions and the percentage of each Member's collections to total Agency collections.

H. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means. The Agency records a liability for all accumulated unused vacation time when earned for all eligible employees.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those that the Agency has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employee wage rates at year-end taking into consideration any limits specified in the Agency's termination policy.

Regional Income Tax Agency

Notes to the Basic Financial Statements

December 31, 2018 and 2017

Note 2: Summary of Significant Accounting Policies (continued)

H. Compensated Absences (continued)

The due within one year portion for compensated absences is determined based on total vacation and compensatory time, plus accrued sick leave for employees eligible to retire. Actual results may differ from this estimate based upon actual employee resignations, retirements and usage of compensated absences.

I. Unearned Revenue

Unearned revenue represents tax collection fees accrued that will be earned in subsequent periods as the tax receivables are collected. It is necessary to calculate unearned revenue when recording an estimated receivable that the Agency will withhold from its Members when collecting the taxes on current year earnings. Unearned revenue in the amount of \$13,559,898 at December 31, 2018 and \$12,172,268 at December 31, 2017 has not been recorded as revenue because the transactions have not yet been processed, therefore, the money has not yet been earned.

J. Deferred Outflows/Inflows of Resources

In addition to assets, the financial statements report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense) until then. For the Agency, deferred outflows of resources include a deferred charge for future pension and other post-employment benefit (OPEB) obligations. The deferred outflows of resources related to pensions and OPEB plans are explained respectively in Note 11 and Note 12.

In addition to liabilities, the financial statements report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized until that time. For the Agency, deferred inflows of resources include changes in net pension and net OPEB obligations. The deferred inflows of resources related to pensions and OPEB are explained respectively in Note 11 and Note 12.

K. Net Position

Net position represents the difference between assets, deferred outflows of resources, liabilities and deferred inflows of resources. Investment in capital assets consists of capital assets (net of accumulated depreciation). Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Agency or through external restrictions imposed by creditors, grantors, laws or regulations of other governments. The Agency applies restricted resources when an expense is incurred for which both restricted and unrestricted net position are available.

L. Revenues and Expenses

Operating revenues and expenses result from providing tax collection services, extraordinary services, and goods to the Members. Operating expenses consist of the cost of these services, including administrative expenses and depreciation on capital assets. Non-operating revenues and expenses are all revenues and expenses not meeting the definition of operating revenues and expenses. Non-operating revenues and expenses include revenues and expenses from capital and related financing activities and investing activities.

Regional Income Tax Agency

Notes to the Basic Financial Statements

December 31, 2018 and 2017

Note 2: Summary of Significant Accounting Policies (continued)

M. Pensions / Other Post-employment (OPEB) Liabilities

For purposes of measuring net pension/OPEB liability, deferred outflow of resources and deferred inflow of resources related to pension/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the state pension/OPEB systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB systems report investments at fair value. Additional details on the pension/OPEB systems are provided in Note 11 and Note 12 respectively.

N. Use of Estimates

The preparation of the basic financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

P. Comparative Data/Reclassifications

Comparative data for the prior year presented in order to provide an understanding of the changes in financial position and operations. Certain reclassifications have been made to the 2017 financial statements in order to conform to the 2018 presentation.

Note 3: Changes in Accounting Principles

In 2018, the Agency implemented Governmental Accounting Standards Board (GASB) Statement No. 75, *Accounting and Financial Reporting for Post-employment Benefits Other than Pensions*, GASB Statement No. 85, *Omnibus 2017* and GASB Statement No. 86, *Certain Debt Extinguishment Issues*.

GASB 75 established standards for measuring and recognizing post-employment benefit liabilities, deferred outflows of resources, deferred inflows of resources and expense. The implementation of this pronouncement had the following effect on beginning net position as reported as of December 31, 2017:

Net position at December 31, 2017	\$ (6,163,474)
Other Post-Employment Benefits	(7,025,876)
Deferred outflow – payments subsequent to measurement date	<u>101,633</u>
Restated net position at December 31, 2017	\$ <u>(13,087,717)</u>

Other than employer contributions subsequent to the measurement date, the Agency made no adjustments for deferred outflows or deferred inflows of resources from the state retirement plans for the prior year as the relevant information was not available. As the Agency has chosen to present comparative financial statements and corresponding footnotes, certain financial items and related note disclosures were not restated for fiscal year ended December 31, 2017 but are presented in accordance with GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Post-employment Benefits Other Than Pensions* (see Note 12).

Regional Income Tax Agency

Notes to the Basic Financial Statements

December 31, 2018 and 2017

Note 3: Changes in Accounting Principles (continued)

GASB Statement No. 85 addresses practice issues that had been identified during implementation and application of certain GASB statements. Topics include issues related of blending component units, goodwill, fair value measurements and application and post-employment benefits (pensions and OPEB). Aside from the effect of recognizing OPEB liabilities previously mentioned as part of GASB Statement No. 75, implementation of this pronouncement did not result in additional changes to the Agency's financial statements or disclosures.

GASB Statement No. 86 was issued with the intent of improving consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions involved in the extinguishment of debt including, prepaid insurance and note disclosures for in-substance defeasance of debt. Implementation of this GASB pronouncement did not result in any changes to the Agency's financial statements or disclosures.

Note 4: Deposits and Investments

State of Ohio statutes classify funds held by the Agency into three categories.

Active deposits are amounts necessary to meet current cash needs. Such monies are maintained either in commercial accounts payable or withdrawable on demand accounts, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts. Inactive deposits are monies identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts. Interim deposits are those monies that are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim monies may be deposited or invested in the following securities:

1. Bonds, notes or other obligations of or guaranteed by the United States, or those for which the faith of the United States is pledged for the payment of principal and interest therein.
2. Bonds, notes, debentures or other obligations or securities issued by any federal government agency.
3. Deposits with financial institutions and savings and loan associations.
4. State Treasurer's investment pool (STAR Ohio).
5. Bonds and other obligations of the State of Ohio and its political subdivisions.
6. Repurchase agreements of a bank or savings and loan association organized under the laws of the U.S. or State of Ohio for negotiable direct obligations of the United States or U.S. federal agencies. If any repurchase agreement obligations do not have the backing of the full faith and credit of the United States, any such investment shall be secured by collateral as provided herein.

Investments in mortgage backed securities, principal only or interest only or strips, reverse repurchase agreements and derivatives are forbidden. The use of leverage and short selling are also prohibited. Repurchase agreements are limited to maximum maturities of thirty days. A maximum of \$25 million can be invested over a longer period not to exceed two years. All other funds shall be invested for a period not to exceed 45 days.

Regional Income Tax Agency

Notes to the Basic Financial Statements

December 31, 2018 and 2017

Note 4: Deposits and Investments (continued)

Deposits

Custodial credit risk is the risk that, in the event of bank failure, the Agency's deposits may be lost. The Agency has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the Agency or a qualified trustee by the financial institution as security for repayment, or by establishing and pledging to the State Treasurer a single pool of collateral for the benefit of every public depositor. The total market value of the securities pledged must meet either of the following:

1. One hundred two percent of the total amount of the total amount of all uninsured public deposits.
2. An amount determined by rules adopted by the State Treasurer that set forth the criteria for determining the aggregative market value of the pool of eligible securities pledged by a public deposits.

Repurchase agreements must be secured by the specific government securities upon which the repurchase agreements are based. These securities must be obligations of or guaranteed by the United States and mature or be redeemable within five years of the date of the related repurchase agreement. The fair value of the securities subject to a repurchase agreement must exceed the value of the principal by two percent and be marked to market daily. State law does not require security for public deposits and investments to be maintained in the Agency's name.

At December 31, 2018, the carrying amount of the Agency's deposits was \$77,223,724 and the bank balance was \$81,071,008. Of the bank balance, \$500,000 was covered by FDIC insurance and \$80,571,008 was covered by specific collateral held in the Agency's name. At year-end, the Agency had \$420 of undeposited cash on hand.

At December 31, 2017, the carrying amount of the Agency's deposits was \$95,692,977 and the bank balance was \$99,690,103. Of the bank balance, \$419,187 was covered by FDIC insurance and \$99,270,916 was covered by specific collateral held in the Agency's name. At year-end, the Agency had \$420 of undeposited cash on hand.

Investments

As of December 31, 2018, the Agency had the following investments:

	<u>Measurement Amount</u>	<u>Rating*</u>	<u>Less than One Year</u>
Amortized Cost:			
STAR Ohio	\$ 73,284,491	AAAm	\$ 73,284,491
* Standard & Poor's			

As of December 31, 2017, the Agency had the following investments:

	<u>Measurement Value</u>	<u>Rating*</u>	<u>Less than One Year</u>
Amortized Cost:			
STAR Ohio	\$ 46,981,180	AAAm	\$ 46,981,180
* Standard & Poor's			

Regional Income Tax Agency

Notes to the Basic Financial Statements

December 31, 2018 and 2017

Note 4: Deposits and Investments (continued)

The Agency has categorized its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs. The above charts identify the Agency's recurring fair value measurements as of December 31, 2018 and 2017. At December 31, 2018 and 2017, the Agency does not have any investments measured at fair value.

Safety of principal is an investment objective of the Agency. The Agency's policy states that each transaction shall seek to first ensure that capital losses are avoided, whether they are from securities, defaults or erosion of fair value. The Agency seeks to attain market rates of return on its investments, consistent with constraints imposed by its safety objectives, cash flow considerations and state laws that restrict the placement of certain public funds.

Interest Rate Risk arises because potential purchasers of debt securities will not agree to pay face value for those securities if interest rates subsequently increase. The Agency mitigates risk by timing investment maturities to match operating cash requirements. In addition, due to the bi-monthly cash distribution schedule, investments must be of a relatively short duration.

Custodial Risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the Agency will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. Investments may only be made through institutions that are members of the National Association of Securities Dealers. The Board of Trustees reviews and approves these institutions.

Credit Risk is addressed by the Agency's investment policy by the requirements that all investments are authorized by Ohio Revised Code and that the portfolio be diversified by issuer. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service.

Concentration of Credit Risk is the risk of loss attributed to the magnitude of the investment in a single issuer. The Agency's investment policy requires that the repurchase agreements cannot exceed ten percent (10%) of the capital of the issuing institution or seventy-five percent (75%) of the Agency investment portfolio with the exception that the Agency is authorized to invest one-hundred percent (100%) of its portfolio in repurchase agreements or other investment vehicles with the State Treasurer's investment pool (STAR Ohio).

The following is the Agency's allocation as of December 31, 2018:

<u>Investment Issue</u>	<u>Percentage of Investments</u>
STAR Ohio	100.00%

The following is the Agency's allocation as of December 31, 2017:

<u>Investment Issue</u>	<u>Percentage of Investments</u>
STAR Ohio	100.00%

Regional Income Tax Agency

Notes to the Basic Financial Statements

December 31, 2018 and 2017

Note 5: Receivables

Accounts receivable included on the Statements of Net Position at December 31, 2018 and 2017 consists primarily of subpoena fees receivable and miscellaneous service receivables due from Members. Management considers all receivables fully collectible.

Note 6: Capital Assets

Capital asset activity for the year ended December 31, 2018, was as follows:

	Balance 12/31/2017	Additions	Retirements	Balance 12/31/2018
Nondepreciable Capital Assets:				
Land	\$ 195,073	\$ -	\$ -	\$ 195,073
Capital Assets being Depreciated:

Total Long-Term Obligations	\$ <u>16,966,020</u>	\$ <u>4,485,054</u>	\$ <u>(5,132,675)</u>	\$ <u>16,318,399</u>	\$ <u>643,909</u>

Note 8: Capital Lease Commitment

On December 1, 2001, the Members entered into a lease agreement with National City Leasing Corporation (NCLC) to provide funds for the acquisition and installation of personal property consisting of computer equipment, computer software and certain other furnishings and equipment to be located and used at the Agency. The NCLC lease agreement was refinanced on January 31, 2003 and 2004 and on December 30, 2004, the Agency obtained Series 2004 permanent bond financing for this obligation with the Authority.

The replacement capital lease agreement signed by the Agency generated proceeds of \$21,662,747. This exceeded the par amount of \$20,990,000, resulting in a premium of \$672,747. From the proceeds, \$20,724,937 was placed in a trust to refinance the NCLC capital lease in January 2005 and to establish new bond reserve and retirement funds, while \$937,810 related to loan fees. The leased personal property includes the HVAC system, other improvements and furnishings of the project site, and the development, furnishing, and installing of certain computer hardware and software and acts as security for the capital lease. The initial lease term was December 30, 2004 to December 31, 2005; however, the Agency exercised its options and extended the maturity date to December 31, 2009. The initial terms allowed the lessee to renew the lease for consecutive one-year periods, except that the final renewal term would mature on November 15, 2022. The lease included a \$10 bargain purchase option; therefore, management recorded the obligation as a capital lease with an initial imputed interest rate of 4.726%.

Regional Income Tax Agency

Notes to the Basic Financial Statements

December 31, 2018 and 2017

Note 8: Capital Lease Commitment (continued)

The Agency utilized capital lease proceeds to implement a new, multi-dimensional tax information system. The operational systems include an Imaging and Document Workflow system, a Telephone Interactive Voice Recognition Unit, a Customer Relationship Management system, a Virtual Private Network, a Datawarehouse, an eProcess system, an eBusiness system, a Data Entry system and an Editing system. These items are capitalized as the Office Equipment and Software and the amortization of the capital lease is included in depreciation expense.

In June 2017, the Agency elected to exercise the optional redemption provision for the Series 2004 Development Revenue Bonds. The total payoff amount of \$3,991,563, consisting of principal of \$3,964,649 and accrued interest and other fees of \$26,914 was reduced by \$1,465,045 of Bond Reserve fund excess proceeds. The early extinguishment resulted in a gain of \$153,734.

Note 9: Tax Collection Fees

During each year, the Agency withholds, as its tax collection fee, a portion of the taxes, penalties and interest collected. At year-end, the amount withheld in excess of operating expenses less other revenues is determined and recorded as amounts Due to Other Governments. In the subsequent year, this excess is distributed to the Members. At December 31, 2018 and 2017, the amount due to other governments is calculated as follows:

	<u>2018</u>	<u>2017</u>
Amounts withheld for Tax Collection Fees	\$ 43,757,334	\$ 42,691,151
Charges for Services and Other Revenues	954,721	926,448
Net Investment Income	<u>1,703,399</u>	<u>661,273</u>
Subtotal	46,415,454	44,278,872
Operating Expenses and Interest Expense	<u>25,778,135</u>	<u>24,636,213</u>
Excess of Amounts withheld (Due to Other Governments)	<u>\$ 20,637,319</u>	<u>\$ 19,642,659</u>

Note 10: Compensated Absences

The Agency's employees accumulate vacation leave and unlimited sick leave based upon hours worked and years of service. Upon retirement or death, employees are paid 25 percent of accumulated sick leave, not to exceed 250 hours. Sick leave in excess of the 250 hour maximum is not paid upon retirement or death, but will be paid only upon illness while in the employment of the Agency.

During the first seven years of employment, employees can earn 10 days of vacation leave per year. During the next six years of employment, employees can earn 15 days per year. After 13 years of employment, an employee can earn 20 days and after 21 years of service, employees can earn 25 days per year. Employees may accrue, and if applicable, be paid upon termination of employment with the Agency, up to a maximum of 20 days in the first seven years of employment, 30 days during the next seven years of employment, 40 days in the subsequent eight years and 50 days thereafter.

Notes to the Basic Financial Statements

December 31, 2018 and 2017

Note 11: Defined Benefit Pension Plans

Net Pension/Other Post-employment Benefits (OPEB) Liability

The net pension/OPEB liability reported on the Statement of Net Position represents a liability to employees for pensions/OPEB. Pensions/OPEB are a component of exchange transactions – between an employer and its employees – of salaries and benefits for employee services. Pensions/OPEB are provided to an employee – on a deferred-payment basis – as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions/OPEB is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension/OPEB liabilities represents the Agency's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the Agency's obligation for this liability to annually required payments. The Agency cannot control benefit terms or the manner in which pensions/OPEB financed; however, the Agency does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68 and 75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for OPEB benefits including primarily health care. In most cases, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium.

State statute requires the retirement systems to amortize unfunded pension/OPEB liabilities within 30 years. If the pension/OPEB amortization period exceeds 30 years, each retirement system's board must propose corrective action to the state legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability. Resulting adjustments to the net pension/OPEB liability would be effective when the changes are legally enforceable. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The proportionate share of each plan's unfunded benefits is presented as a long-term net pension/OPEB liability on the accrual basis of accounting. Any liability for the contractually required contribution outstanding at the end of the year is included as an accrued liability. The remainder of this note includes the required pension disclosures. See Note 12 for the required OPEB disclosures.

December 31, 2018 and 2017

Note 11: Defined Benefit Pension Plans (continued)

Plan Description – Ohio Public Employees Retirement System (OPERS)

Plan Description – Agency employees participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While members (e.g., Agency employees) may elect the member-directed plan, substantially all employee members are in OPERS' traditional or combined plans; therefore, the following disclosure focuses on the traditional and combined plans.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional and combined plans. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <https://www.opers.org/financial/reports.shtml>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 614-222-5601 or 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. Final average salary (FAS) represents the average of the three highest years of earnings over the member's career for Groups A and B. Group C is based on the average of the five highest years of earning over a member's career. Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

The traditional plan is a defined benefit plan in which a member's retirement benefits are calculated on a formula that considers years of service and FAS. Pension benefits are funded by both member and employer contributions and investment earnings on those contributions.

The following table provides age and service requirements for retirement and the retirement formula applied to the FAS for the three member groups under the traditional plan (see OPERS CAFR referenced above for additional information):

Group A	Group B	Group C
Eligible to retire prior to January 7, 2013 or five years after January 7, 2013	20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013	Members not in other Groups and members hired on or after January 7, 2013
State and Local	State and Local	State and Local
Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 57 with 25 years of service credit or Age 62 with 5 years of service credit
Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Formula: 2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35

Regional Income Tax Agency

Notes to the Basic Financial Statements

December 31, 2018 and 2017

Note 11: Defined Benefit Pension Plans (continued)

Plan Description – Ohio Public Employees Retirement System (OPERS) (continued)

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a benefit recipient retiring under the traditional plan has received benefits for 12 months, an annual cost of living adjustment (COLA) is provided on the member's base benefit. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3% simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3%. Additionally, a death benefit of \$500 – \$2,500, determined by the number of years of service credit of the retiree, is paid to the beneficiary of a deceased retiree or disability benefit recipient under the traditional plan.

The combined plan is a defined benefit plan with elements of a defined contribution plan. Members earn a formula benefit similar to, but at a factor less than the traditional plan benefit. This defined benefit is funded by employer contributions and associated investment earnings. Member contributions are deposited into a defined contribution account in which the member self-directs the investment. Upon retirement, the member may choose a defined contribution distribution that is equal to the member's contributions to the plan and investment earnings (or losses). Members may also elect to use their defined contribution account balances to purchase a defined benefit annuity administered by OPERS.

Benefits in the combined plan consist of both an age-and-service formula benefit (defined benefit) and a defined contribution element. The defined benefit element is calculated on the basis of age, FAS, and years of service. Eligibility regarding age and years of service in the combined plan is the same as the traditional plan.

Members retiring under the combined plan receive a 3% COLA on the defined benefit portion of their benefit. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3% simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3%.

Additionally, a death benefit of \$500 – \$2,500, determined by the number of years of service credit of the retiree, is paid to the beneficiary of a deceased retiree or disability benefit recipient under the combined plan.

The subsequent table provides age and service requirements for retirement and the retirement formula applied to the FAS for the three member groups under the combined plan (see OPERS CAFR referenced above for additional information):

Notes to the Basic Financial Statements

December 31, 2018 and 2017

Note 11: Defined Benefit Pension Plans (continued)

Plan Description – Ohio Public Employees Retirement System (OPERS) (continued)

Group A Eligible to retire prior to January 7, 2013 or five years after January 7, 2013	Group B 20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013	Group C Members not in other Groups and members hired on or after January 7, 2013
State and Local	State and Local	State and Local
Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 57 with 25 years of service credit or Age 62 with 5 years of service credit
Formula: 1.0% of FAS multiplied by years of service for the first 30 years and 1.25% for service years in excess of 30	Formula: 1.0% of FAS multiplied by years of service for the first 30 years and 1.25% for service years in excess of 30	Formula: 1.0% of FAS multiplied by years of service for the first 35 years and 1.25% for service years in excess of 35

Defined contribution plan benefits are established in the plan documents, which may be amended by the OPERS Board. Both member-directed plan and combined plan members who have met the eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the combined plan consists of the member’s contributions plus or minus the investment gains or losses resulting from the member’s investment selections. Combined plan members wishing to receive benefits must meet the requirements for both the defined benefit and defined contribution plans. Member-directed participants must have attained the age of 55, have money on deposit in the defined contribution plan and have terminated public service to apply for retirement benefits. The amount available for defined contribution benefits in the member-directed plan consists of the members’ contributions, vested employer contributions and investment gains or losses resulting from the members’ investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20% each year. At retirement, members may select one of several distribution options for payment of the vested balance in their individual OPERS accounts. Options include the purchase of a monthly defined benefit annuity from OPERS (which includes joint and survivor options), partial lump-sum payments (subject to limitations), a rollover of the vested account balance to another financial institution, receipt of entire account balance, net of taxes withheld, or a combination of these.

Funding Policy – The Ohio Revised Code provides statutory authority for member and employer contributions and currently limits the employer contribution to a rate not to exceed 14% of covered payroll for state and local employer units. Member contribution rates, as set forth in the Ohio Revised Code, are not to exceed 10% of covered payroll for members in the state and local classifications.

Regional Income Tax Agency

Notes to the Basic Financial Statements

December 31, 2018 and 2017

Note 11: Defined Benefit Pension Plans (continued)

Plan Description – Ohio Public Employees Retirement System (OPERS) (continued)

The portion of employer contributions used to fund pension benefits is net of post-employment health care benefits. The portion of the employer’s contribution allocated to health care was 1% for 2017 and 0% for 2018. Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The Agency’s contractually required contribution for the traditional plan net of post-employment health care benefits, for 2018 and 2017 were \$1,341,497 and \$1,191,749, respectively. The contractually required contribution for the combined plan net of post-employment health care benefits for 2018 and 2017 were \$56,515 and \$48,886, respectively. For the 2018 amounts, \$187,846 is reported as accrued wages and benefits at December 31, 2018.

Actuarial Assumptions – OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The active member population which consists of members in the traditional and combined plans is assumed to remain constant. For purposes of financing the unfunded actuarial accrued liabilities, total payroll is assumed to grow at the wage inflation rate indicated below.

The total pension liability/asset for the measurement periods December 31, 2017 and December 31, 2016 were determined using the following actuarial assumptions that follow and as applied to all periods included in the measurement:

Key Methods and Assumptions Used in Valuation of Total Pension Liability - 2017 and 2016 Measurement

<u>Actuarial Information</u>	<u>OPERS Traditional Plan</u>	<u>OPERS Combined Plan</u>
Valuation Date	December 31, 2017	December 31, 2017
Experience Study	5-year period ended December 31, 2015	5-year period ended December 31, 2015
Actuarial Cost Method	Individual Entry Age	Individual Entry Age
Actuarial Assumptions:		
Investment Rate of Return	7.50%	7.50%
Wage Inflation	3.25%	3.25%
Projected Salary Increase	3.25-10.75% (includes 3.25% wage inflation)	3.25-8.25% (includes 3.25% wage inflation)
COLA or Ad Hoc COLA:		
Pre-Jan 7, 2013 Retirees	3.00% Simple	3.00% Simple
Post-Jan 7, 2013 Retirees	3.00% Simple through 2018 then 2.15% Simple	3.00% Simple through 2018 then 2.15% Simple

Regional Income Tax Agency

Notes to the Basic Financial Statements

December 31, 2018 and 2017

Note 11: Defined Benefit Pension Plans (continued)

Actuarial Assumptions – OPERS (continued)

OPERS conducts an experience study every five years in accordance with Ohio Revised Code Section 145.22. The study for the five-year period ended December 31, 2015 and methods and assumptions were approved and adopted by the OPERS Board of Trustees.

Mortality rates were based on the RP-2014 Health Annuitant Mortality table. For males, Healthy Annuitant Mortality tables were used, adjusted for mortality improvement back to the observation period base of 2006 and then established the base year as 2015. For females, Healthy Annuitant Mortality tables were used, adjusted for mortality improvements back to the observation period base year of 2006 and then established the base year as 2010.

The mortality rates used in evaluating disability allowances were based on the RP-2014 Disabled Mortality tables, adjusted for mortality improvement back to the observation base year of 2006 and then established the base year as 2015 for males and 2010 for females. Mortality rates for a particular calendar year for both healthy and disabled retiree mortality tables were determined by applying the MP-2015 Mortality Improvement Scale to the above described tables.

For 2016 and prior actuarial valuations, mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022 – Scale AA) for males and females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89, and no set back from age 90 and above.

The long-term rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

During 2017, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio and the Defined Contribution portfolio. The Defined Benefit portfolio contains the investment assets of the traditional plan, the defined benefit component of the combined plan and the annuitized accounts of the member-directed plan. The money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for changing amounts actually invested for the Defined Benefit portfolio was 16.82% for 2017.

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table below displays the Board-approved asset allocation policy for 2017 and 2016 and the long-term expected real rates of return:

Regional Income Tax Agency

Notes to the Basic Financial Statements

December 31, 2018 and 2017

Note 11: Defined Benefit Pension Plans (continued)

Actuarial Assumptions – OPERS (continued)

Asset Class	2017	2017	2016	2016
	Target Allocation	Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)	Target Allocation	Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)
Fixed Income	23.00 %	2.20 %	23.00 %	2.75 %
Domestic Equities	19.00	6.37	20.70	6.34
Real Estate	10.00	5.26	10.00	4.75
Private Equity	10.00	8.97	10.00	8.97
International Equities	20.00	7.88	18.30	7.95
Other investments	18.00	5.26	18.00	4.92
Total	<u>100.00 %</u>	<u>5.66 %</u>	<u>100.00 %</u>	<u>5.66 %</u>

Discount Rate The discount rate used to measure the total pension liability for measurement years 2017 and 2016 was 7.5% for both years. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the statutorily required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Agency's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following table presents the Agency's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.5%, as well as what the Agency's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.5%) or one-percentage-point higher (8.5%) than the current rate:

Agency's proportionate share of the Net Pension Liability/(Asset)	1% Decrease	Current	1% Increase
	(6.5%)	Discount Rate (7.5%)	(8.5%)
Traditional Plan	\$20,041,045	\$11,285,991	\$3,986,915
Combined Plan	(\$69,617)	(\$128,068)	(\$168,398)

Agency's proportionate share of the Net Pension Liability/(Asset)	1% Decrease	Current	1% Increase
	(6.5%)	Discount Rate (7.5%)	(8.5%)
Traditional Plan	\$23,251,272	\$15,219,556	\$8,526,539
Combined Plan	\$3,285	(\$45,713)	(\$83,778)

Changes between Measurement Date and Report Date In October 2018, the OPERS Board voted to lower the investment return assumption for its defined benefit fund from 7.5% to 7.2%. This assumption change will impact OPERS annual actuarial valuation prepared as of December 31, 2018.

Regional Income Tax Agency

Notes to the Basic Financial Statements

December 31, 2018 and 2017

Note 11: Defined Benefit Pension Plans (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability for OPERS as of December 31, 2018 and 2017, were measured as of December 31, 2017 and 2016, respectively. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of those dates. The Agency's proportion of the net pension liability was based on the Agency's share of contributions to the pension plan relative to the contributions of all participating entities. Subsequent payments made during the current fiscal year are accounted for as deferred outflows. Where previously we presented year to year comparison of changes in pension liabilities and pension expense by plan, the following table reflects the proportionate share of pension expense for the current and prior years for all plans and thus the Agency, in total. The related deferred outflows and deferred inflows of resources associated with the pension liability are presented below.

2018 Net Pension Assets and Liabilities:

	<u>OPERS Traditional</u>	<u>OPERS Combined</u>	<u>Total</u>
Proportion of the Net Pension Liability/ Asset Prior Measurement Date	0.067022%	0.082135%	
Proportion of the Net Pension Liability/ Asset Current Measurement Date	<u>0.071940%</u>	<u>0.094077%</u>	
Change in Proportionate Share	(0.004918%)	(0.011942%)	
Proportionate Share of the Net Pension Assets	\$ -	\$ 128,068	\$ 128,068

Note 11: Defined Benefit Pension Plans (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

At December 31, 2018, the Agency reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>OPERS Traditional</u>	<u>OPERS Combined</u>	<u>Total</u>
Deferred Outflow of Resources			
Agency Contributions Subsequent to the Measurement Date	\$ 1,341,497	\$ 56,515	\$ 1,398,012
Differences in Employer Contributions and Change in Proportionate Share	501,444	-	501,444
Difference between Expected and Actual Experience	11,524	-	11,524
Change in Assumptions	<u>1,348,752</u>	<u>11,192</u>	<u>1,359,944</u>
Total Deferred Outflow of Resources	\$ <u>3,203,217</u>	\$ <u>67,707</u>	\$ <u>3,270,924</u>
Deferred Inflow of Resources			
Differences in Employer Contributions and Change in Proportionate Share	\$ 77,460	\$ 16,338	\$ 93,798
Differences between Projected and Actual Earnings on Pension Plan Investments	2,422,954	20,206	2,443,160
Difference between Expected and Actual Experience	<u>222,411</u>	<u>38,153</u>	<u>260,564</u>
Total Deferred Inflow of Resources	\$ <u>2,722,825</u>	\$ <u>74,697</u>	\$ <u>2,797,522</u>

The \$1,398,012 reported as deferred outflows of resources related to pension resulting from the Agency's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	<u>OPERS Traditional</u>	<u>OPERS Combined</u>	<u>Total</u>
Fiscal Year Ending December 31:			
2019	\$ 1,204,896	\$ (8,625)	\$ 1,196,271
2020	(3,432)	(9,177)	(12,609)
2021	(1,066,940)	(13,704)	(1,080,644)
2022	(995,629)	(13,226)	(1,008,855)
2023	-	(6,132)	(6,132)
2024-2027	-	<u>(12,641)</u>	<u>(12,641)</u>
	\$ <u>(861,105)</u>	\$ <u>(63,505)</u>	\$ <u>(924,610)</u>

Note 11: Defined Benefit Pension Plans (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

At December 31, 2017, the Agency reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>OPERS Traditional</u>	<u>OPERS Combined</u>	<u>Total</u>
Deferred Outflow of Resources			
Agency Contributions Subsequent to the Measurement Date	\$ 1,191,749	\$ 48,886	\$ 1,240,635
Differences in Employer Contributions and Change in Proportionate Share	125,507	-	125,507
Difference between Expected and Actual Experience	20,629	-	20,629
Change in Assumptions	2,414,007	11,141	2,425,148
Net Difference between Projected and Actual Earnings on Pension Plan Investments	<u>2,266,543</u>	<u>11,154</u>	<u>2,277,697</u>
Total Deferred Outflow of Resources	\$ <u>6,018,435</u>	\$ <u>71,181</u>	\$ <u>6,089,616</u>
Deferred Inflow of Resources			
Differences in Employer Contributions and Change in Proportionate Share	\$ 148,811	\$ 10,476	\$ 159,287
Difference between Expected and Actual Experience	<u>90,579</u>	<u>23,381</u>	<u>113,960</u>
Total Deferred Inflow of Resources	\$ <u>239,390</u>	\$ <u>33,857</u>	\$ <u>273,247</u>

Regional Income Tax Agency

Notes to the Basic Financial Statements

December 31, 2018 and 2017

Note 12: Post-Employment Benefits – Ohio Public Employees Retirement System

Plan Description – Ohio Public Employees Retirement System (OPERS)

The Agency has one specific plan, OPERS that qualify as OPEB according to guidelines presented within GASB Statement No. 75, *Accounting and Financial Reporting for Post-employment Benefit Plans Other Than Pension Plans*. As the Agency has chosen to present comparative financial statements in this fiscal year when OPEB accounting under GASB 75 was first adopted, the Agency is required to present its disclosure notes under both GASB 75 for current year reporting and GASB 45 for fiscal year 2017 reporting.

Plan Description – The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the traditional pension plan, a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan, a defined contribution plan; and the combined plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement to qualifying benefit recipients of both the traditional pension and the combined plans. This trust is also used to fund health care for member-directed plan participants, in the form of a Retiree Medical Account (RMA). At retirement or refund, member directed plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

In order to qualify for post-employment health care coverage, age and service retirees under the traditional pension and combined plans must have twenty or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post-Employment Benefit (OPEB) as described in GASB Statement 75. See OPERS' CAFR referenced below for additional information.

The Ohio Revised Code permits, but does not require OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting <https://www.opers.org/financial/reports.shtml>, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 800-222-7377.

Funding Policy – The Ohio Revised Code provides the statutory authority requiring public employers to fund post-employment health care through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2018, state and local employers contributed at a rate of 14% of earnable salary. This is the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

Regional Income Tax Agency

Notes to the Basic Financial Statements

December 31, 2018 and 2017

Note 12: Post-Employment Benefits – Ohio Public Employees Retirement System (continued)

Plan Description – Ohio Public Employees Retirement System (OPERS) (continued)

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. The portion of employer contributions allocated to health care for members in the traditional plan and combined plan was 1% in 2017. As recommended by OPERS' actuary, the portion of employer contributions allocated to health care beginning January 1, 2018 decreased to 0% for both plans. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the member-directed plan for 2017 was 4%.

The OPEB liability for OPERS were determined by an actuarial valuation as of December 31, 2016, rolled forward to the measurement date of December 31, 2017, by incorporating the expected value of health care cost accruals, the actual health care payment, and interest accruals during the year. The Agency's proportion of the net OPEB liability was based on the Agency's share of contributions to the respective retirement systems relative to the contributions of all participating entities. The Agency's proportionate share of the OPERS net OPEB liability as of December 31, 2018 was \$8,079,293. As this is the first year of implementation, prior year information was not available to provide comparative analysis of changes.

Changes in actuarial valuation of the net OPEB liability, changes in deferred outflows and deferred inflows, subsequent plan contributions and amortization of changes in proportionate share from year to year may have either a positive or negative effect to the Agency's recognition of OPEB expense for the period. As this is the first year of implementing the change in financial reporting as required under GASB Statement No. 75, prior year comparable data is unavailable. In 2018, the Agency's recognition of its proportionate share of OPEB expense with respect to OPERS Ohio's health benefit plans resulted in OPEB expense of \$842,150.

Deferred outflows and deferred inflows represent the effect of changes in the net OPEB liability due to the difference between projected and actual investment earnings, differences between expected and actual actuarial experience, changes in assumptions, changes in plan design and changes in the employers' proportion of the collective net OPEB liability. The deferred outflows and deferred inflows are to be included in OPEB expense over current and future periods. The difference between projected and actual investment earnings is recognized in OPEB expense using a straight-line method over five years beginning in the current year. Deferred outflows and deferred inflows resulting from changes in sources other than differences between projected and actual investment earnings are amortized over a 3.0916 years using a straight line method which represents the average expected remaining service lives of all members (both active and inactive). Employer contributions to the OPEB plan subsequent to the measurement date are required to be reported as a deferred outflow of resources. Deferred outflows were \$914,753 while deferred inflows were \$601,853 related to the Agency's share of OPERS OPEB deferred resources for 2018.

Actuarial Assumptions – OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Regional Income Tax Agency

Notes to the Basic Financial Statements

December 31, 2018 and 2017

Note 12: Post-Employment Benefits – Ohio Public Employees Retirement System (continued)

Actuarial Assumptions – OPERS (continued)

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of coverage provided at the time of each valuation and the historical pattern of sharing of costs between OPERS and plan members. The total OPEB liability was determined by an actuarial valuation as of December 31, 2016, rolled forward to the measurement date of December 31, 2017.

The actuarial valuation used the following actuarial assumptions applied to all prior periods included in the measurement in accordance with the requirements of GASB 75:

	<u>Assumptions</u>
Valuation date	December 31, 2016
Rolled-Forward Measurement Date	December 31, 2017
Experience Study	5-year Period Ended December 31, 2015
Actuarial Cost Method	Individual entry age normal
Projected Salary Increases, including 3.25% inflation	3.25 to 10.75%
Projected payroll/active member increase	3.25% per year
Investment Rate of Return	6.50%
Municipal bond rate	3.31%
Single discount rate of return	3.85%
Healthcare cost trend	Initial 7.5% to 3.25% ultimate in 2028

Pre-retirement mortality rates are based on the RP-2014 Employees Mortality Table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant Mortality Table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled Mortality Table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 Mortality Improvement Scale to all of the above described tables.

The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

Regional Income Tax Agency

Notes to the Basic Financial Statements

December 31, 2018 and 2017

Note 12: Post-Employment Benefits – Ohio Public Employees Retirement System (continued)

Actuarial Assumptions – OPERS (continued)

During 2017, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio and the Defined Contribution portfolio. The Health Care portfolio includes the assets for health care expenses for the traditional pension plan, combined plan and member-directed plan eligible members. Within the Health Care portfolio, contributions into the plans are assumed to be received continuously throughout the year based on the actual payroll payable at the time contributions are made, and health care-related payments are assumed to occur mid-year. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Health Care portfolio was 15.2% for 2017.

The allocation of investment assets with the Health Care portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. OPERS' primary goal is to achieve and maintain a fully funded status for the benefits provided through the defined pension plans. Health care is a discretionary benefit.

The table below displays the System's Board-approved asset allocation policy and the long-term expected rate of return for each major asset class.

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Expected Real Rate of Return*</u>
Fixed Income	34.0%	1.88%
Domestic Equities	21.0%	6.37%
Real Estate Investments	6.0%	5.91%
International Equities	22.0%	7.88%
Other investments	<u>17.0%</u>	<u>5.39%</u>
Total	<u>100.0%</u>	<u>4.98%</u>

* Building block method whereby best-estimate ranges of expected future returns are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

Discount rate A single discount rate of 3.85% was used to measure the OPEB liability on the measurement date of December 31, 2017. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on an expected rate of return on the health care investment portfolio of 6.50% and a municipal bond rate of 3.31%. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be met at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through the year 2034. As a result, the long-term expected rate of return on health care investments was applied to projected costs through the year 2034, and the municipal bond rate was applied to all health care costs after that date.

Regional Income Tax Agency

Notes to the Basic Financial Statements

December 31, 2018 and 2017

Note 12: Post-Employment Benefits – Ohio Public Employees Retirement System (continued)

Actuarial Assumptions – OPERS (continued)

Sensitivity of the Agency’s Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate The following table presents the Agency’s proportionate share of the net OPEB liability calculated using the single discount rate of 3.85%, and the expected net OPEB liability if it were calculated using a discount rate that is 1% lower or 1% higher than the current rate.

	<u>1% Decrease</u> (2.85%)	<u>Discount Rate</u> (3.85%)	<u>1% Increase</u> (4.85%)
Agency’s Proportionate Share of the Net OPEB Liability	\$ 10,733,688	\$ 8,079,293	\$ 5,931,912

Sensitivity of the Agency’s Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate Changes in the health care cost trend rate may also have a significant impact on the net OPEB liability. The following table presents the net OPEB liability calculated using the assumed trend rates, and the expected net OPEB liability if it were calculated using a health care cost trend rate that is 1% lower or 1% higher than the current rate.

Retiree health care valuations use a health care cost-trend assumption that changes over several years built into the assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2018 is 7.50%. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is that in the not-too-distant future, the health plan cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries’ project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.25% in the most recent valuation.

	<u>1% Decrease</u>	<u>Health Care Cost Current Discount Rate</u>	<u>1% Increase</u>
Agency’s Proportionate Share of the Net OPEB Liability	\$ 7,730,160	\$ 8,079,293	\$ 8,439,936

Changes between Measurement Date and Report Date In October 2018, the OPERS Board voted to lower the investment return assumption for its health care investment portfolio from 6.5% to 6%. This assumption change will impact OPERS annual actuarial valuation prepared as of December 31, 2018.

At December 31, 2018, the Agency reported its proportionate share of net OPEB liabilities and OPEB expense from OPERS, based on December 31, 2017 measurement, as displayed in the subsequent table.

Regional Income Tax Agency

Notes to the Basic Financial Statements

December 31, 2018 and 2017

Note 12: Post-Employment Benefits – Ohio Public Employees Retirement System (continued)

OPEB Liabilities, Deferred Outflows, Deferred Inflows and OPEB Expense – OPERS

The net OPEB liability and total OPEB liability for OPERS were determined by an actuarial valuation as of December 31, 2016, rolled forward to the measurement date of December 31, 2017, by incorporating the expected value of health care cost accruals, the actual health care payment, and interest accruals during the year.

The Agency's proportion of the net OPEB liability was based on the Agency's share of contributions to the retirement plan relative to the contributions of all participating entities. Following is the information related to the proportionate share and OPEB expense:

	<u>OPERS</u>
Proportion of the Net OPEB Liability	
Prior Measurement Date	0.069561%
Proportion of the Net OPEB Liability	
Current Measurement Date	<u>0.074400%</u>
Change in Proportionate Share	0.004839%
Proportionate Share of the Net OPEB Liability	\$ 8,079,293
OPEB Expense	\$ 842,150

At December 31, 2018, the Agency reported deferred outflow and inflow of resources related to OPEB liabilities from OPERS OPEB plan, based on December 31, 2017 measurement, as indicated in the table below:

	<u>OPERS</u>
Deferred Outflow of Resources	
Differences in Employer Contributions	
and Change in Proportionate Share	\$ 320,201
Difference between Expected and	
Actual Experience	6,294
Change in Assumptions	<u>588,258</u>
Total Deferred Outflow of Resources	\$ <u><u>914,753</u></u>
Deferred Inflow of Resources	
Difference between Projected and Actual	
Earnings on Plan Investments	\$ <u>601,853</u>
Total Deferred Inflow of Resources	\$ <u><u>601,853</u></u>

Employer contributions as a percent of covered payroll towards OPEB plans were 1% for the 2017, 0% percent thereafter. OPERS' employer healthcare contributions for the 2017 were 1% of covered payroll or \$101,633. No portion of the required 14% was allocated to healthcare in 2018.

Amounts reported as deferred outflow of resources and deferred inflow of resources, including change in proportionate share, difference between expected and actual experience, changes in assumptions and difference in projected versus actual earnings on investments are amortized as OPEB expense over subsequent periods. The unamortized portion of deferred outflows and deferred inflows are presented below.

Regional Income Tax Agency

Notes to the Basic Financial Statements

December 31, 2018 and 2017

Note 12: Post-Employment Benefits – Ohio Public Employees Retirement System (continued)

OPEB Liabilities, Deferred Outflows, Deferred Inflows and OPEB Expense – OPERS (continued)

	<u>Total</u>
Fiscal Year Ending December 31:	
2019	\$ 286,883
2020	286,883
2021	(110,402)
2022	<u>(150,464)</u>
	\$ <u>312,900</u>

Note 13: Risk Management

The Agency carries \$2,000,000 of comprehensive general liability insurance coverage, a \$5,000,000 umbrella policy, as well as insurance coverage for the Agency business interruption and property losses. Settled claims have not exceeded this commercial coverage in any of the past three years and there was no significant reduction in coverage from the prior year. Workers' compensation coverage is provided by the State of Ohio. The Agency pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries. The Agency also provides insurance coverage to provide employee health, dental and life insurance benefits provided by a commercial insurance carrier.

The Agency is exposed to various risks of loss including errors and omissions, torts and legal judgments, and damage and destruction of assets.

The Agency is a named defendant in two separate, but related, lawsuits pending in the Franklin County Common Pleas Court.

The first is an action brought by certain City of Gahanna ("Gahanna") residents against Gahanna and the Agency, alleging that Gahanna and the Agency did not properly apply Gahanna's residence tax credit, resulting in some residents overpaying the tax due to Gahanna. *LaBorde v. City of Gahanna, et al*, Case No. 12 CV 8517. The matter has been pending since July 2012 and is proceeding as a class action. The Franklin County Common Pleas Court issued a ruling agreeing with the plaintiff class members' interpretation of the Gahanna residence tax credit, and finding that the class members are entitled to a refund for tax years 2008 through 2014 as a result. The amount the Court has found to be due to the class members is \$13.2 million.

The second action was filed by Gahanna against the Agency, wherein Gahanna alleged that the Agency is responsible for paying all amounts due and owing to the Gahanna resident class members. *City of Gahanna v. Regional Income Tax Agency*, Case No. 18 CV 4258. The Agency has vigorously defended this action, and asserted counterclaims against Gahanna, as all funds collected from the Gahanna class members, other than the Agency's costs, were distributed to Gahanna. This matter was filed by Gahanna on May 21, 2018. No rulings have been issued by the Court in this case.

Regional Income Tax Agency

Notes to the Basic Financial Statements

December 31, 2018 and 2017

Note 13: Risk Management (continued)

A mediation conference was held in April 2019 at which an agreement was reached to resolve all matters pending between the Gahanna resident class members, Gahanna and the Agency. The final settlement amount is \$9.5 million to be distributed to the Gahanna resident class members on a pro rata basis after payment of plaintiffs' attorneys' fees and costs. Gahanna's contribution to this settlement is \$9.1 million. On May 13, 2019 the Gahanna City Council voted to approve its contribution to the settlement. The Agency's contribution to this settlement is \$400,000. On May 16, 2019 the Agency's Board of Trustees approved the Agency's contribution amount and that the amount will be paid from the Stabilization Fund.

The settlement agreement reached by the parties will resolve all claims in both cases; and will be submitted to the Franklin County Common Pleas Court for approval. The Agency's portion of the settlement funds will be paid once the agreement is approved by the Court. The earliest that this is expected to occur is late June 2019. The Agency's portion of the settlement of \$400,000 has been recorded as Accrued Claims and Judgements liability on the Agency's financial statements.

Agency management estimates that the potential claims against the Agency not covered by insurance resulting from litigation would not materially affect the financial statements of the Agency.

Note 14: Stabilization Fund

In December 2011, the Board of Trustees adopted a policy establishing a stabilization fund and approved the initial \$669,050 contribution. This policy segregates certain unrestricted funds that can only be used for specific purposes as imposed by a formal action of the Board. At a minimum, the Board annually reviews the balance and determines an amount, if any, to designate to the Stabilization Fund. The Board approved contributions of \$179,570 for 2018 and \$294,700 for 2017. On May 16, 2019 the Board of Trustees approved \$400,000 to be paid from the Stabilization fund to settle the City of Gahanna lawsuit (see Note 13).

Note 15: Operating Lease

In September 2016, the Agency entered in a 5 year lease agreement for the use of a portion of Cleveland Heights City Hall. The lease expires on August 31, 2021 and the Agency has the option to renew the lease at that time. Based on accounting for leases, this lease is accounted for as an operating lease. Operating leases do not give rise to property rights or lease obligations. During 2018, expenses for the operating lease were \$9,000. The following is a schedule of future minimum rental payments for the Cleveland Heights City Hall office rental, required under operating leases that have initial or remaining non-cancelable lease terms in excess of one year as of December 31, 2018.

2019	\$	9,000
2020		9,000
2021		<u>6,000</u>
Total	\$	<u>24,000</u>

During 2018, operating lease rent expenses, including month-to-month leases were \$35,115.

Notes to the Required Supplementary Information

For the Year Ended December 31, 2018

Changes in Assumptions – OPERS Traditional and Combined Plans

Amounts reported for 2017 incorporate changes in assumptions used by OPERS in calculating the total pension liability in the latest actuarial valuation. These new assumptions compared with those used in 2016 and prior are presented below:

	<u>2017</u>	<u>2016 and Prior</u>
Wage Inflation	3.25%	3.75%
Future Salary Increases, Including Inflation	3.25-10.75% (including wage inflation at 3.25%)	4.25-10.05% (including wage inflation)
COLA or Ad Hoc COLA: Pre-Jan 7, 2013 Retirees	3.00% Simple	3.00% Simple
Post-Jan 7, 2013 Retirees	3.00% Simple through 2018 then 2.15% Simple	3.00% Simple through 2018 then 2.8% Simple
Investment Rate of Return	7.50%	8.00%
Actuarial Cost Method	Individual Entry Age	Individual Entry Age

The 2017 measurement assumptions are reflected in the 2018 liabilities in Notes 11, 12 and RSI tables. Likewise, 2016 measurement assumptions are reflected in 2017 liabilities.

Amounts reported beginning in 2017 use mortality rates based on the RP-2014 Healthy Annuitant Mortality table. For males, Healthy Annuitant Mortality tables were used, adjusted for mortality improvement back to the observation period base of 2006 and then established the base year as 2015. For females, Healthy Annuitant Mortality tables were used, adjusted for mortality improvements back to the observation period base year of 2006 and then established the base year as 2010. The mortality rates used in evaluating disability allowances were based on the RP-2014 Disabled Mortality tables, adjusted for mortality improvement back to the observation base year of 2006 and then established the base year as 2015 for males and 2010 for females. Mortality rates for a particular calendar year for both healthy and disabled retiree mortality tables are determined by applying the MP-2015 Mortality Improvement Scale to the above described tables.

Amounts reported for 2016 and prior use mortality rates based on the RP-2000 Mortality Table projected 20 years using Projection Scale AA. For males, 105% of the combined healthy male mortality rates were used. For females, 100% of the combined healthy female mortality rates were used. The mortality rates used in evaluating disability allowances were based on the RP-2000 Mortality Table with no projections. For males 120% of the disabled female mortality rates were used set forward two years. For females, 100% of the disabled female mortality rates were used.

Change in Assumptions – OPERS OPEB

For 2018, the single discount rate changed from 4.23% to 3.85%.

See Accompanying Note to this Schedule

Regional Income Tax Agency

Note to the Supplementary Information

December 31, 2018

Budgetary Process

Although not required under the Ohio Revised Code, an annual operating budget, which lapses at the end of each year, is adopted for management purposes. The budget is adopted for the proprietary fund on the same accounting basis used to reflect actual revenues and expenses. The Executive Director is authorized to expend the budget amounts; however, any change between the departments, line items or in the total amount budgeted for a particular fund requires the approval of the Board of Trustees of the Agency.

Statistical Section

(Unaudited)

Statistical Section

This portion of the Agency's Comprehensive Annual Financial Report presents detailed information in a context for further understanding of the information in the financial statements, note disclosures and required supplementary information.

Financial Trends – This schedule contains trend information to assist the reader in understanding how the Agency has performed financially over time.

Revenues – These schedules contain information on the Agency's revenues.

Operating Information – These schedules contain information on Agency operations.

Debt Capacity – This schedule shows the Agency's Ratio of Debt.

Economic and Demographic Information – These schedules offer economic and demographic indicators for each municipality.

Sources: Unless otherwise noted, the information in these schedules is derived from the Comprehensive Annual Financial Reports for the relevant year.

(1) - Restated due to implementation of GASB Statement 65

(2) - Restated due to implementation of GASB Statement 68

(3) - The Agency reported the impact of GASB Statement 68 on Net Position beginning in 2015

(4) - Restated due to implementation of GASB Statement 75- The effects of GASB 75 are presented for fiscal year 2018. GASB 75 required a restatement in 2017 ending net position as a result of the cumulative effect of this change in accounting principle. The cumulative change reduced FY17 ending net position (\$6,924,243) from (\$6,163,474) to (\$13,087,717) as restated in the financial statements. (See Note 3 to the financial statements for additional details on this restatement.)

Note: Above amounts are the net collections for the period January 1 to December 31 of the respective years.

(A) Municipality joined the Regional Council of Governments during the year in which tax collections began. All years prior to joining are accordingly left blank.

(B) Municipality left the Regional Council of Governments during the year in which tax collections ended. All years subsequent are left blank.

(C) RITA Membership ceased in 2013, however, due to various factors, collections still received in that year.

(D) Municipality had eliminated income tax in a previous year.

(E) Municipality had eliminated income tax in a previous year and continues RITA Membership.

(F) Municipality joined the Regional Council of Governments during the year in which tax collections began and eliminated income tax in 2015, however, due to various factors, adjustments still made in subsequent years.

(G) RITA Membership ceased in 2018, however, due to various factors, collections still received in that year.
